Festival Flags

Our range of Bamboo Poles combined with multi colour flags, has proved mightily successful in transforming the landscape at Festivals, Weddings, Concerts, Garden Parties, Launches etc. Festival Flags have brought a new dimension to site decoration. They are bright, beautiful and atmospheric. With the combination of height, movement and colour they enhance the inherent beauty of our countryside and have a great appeal.

The flags are all polyester and printed using water based inks. The poles are immensely strong and add to the style of this attractive product.

We have adapted the bamboo to create a rotating arm, which allows for wind shift and we have developed a range of bases suitable for each type of ground consideration.

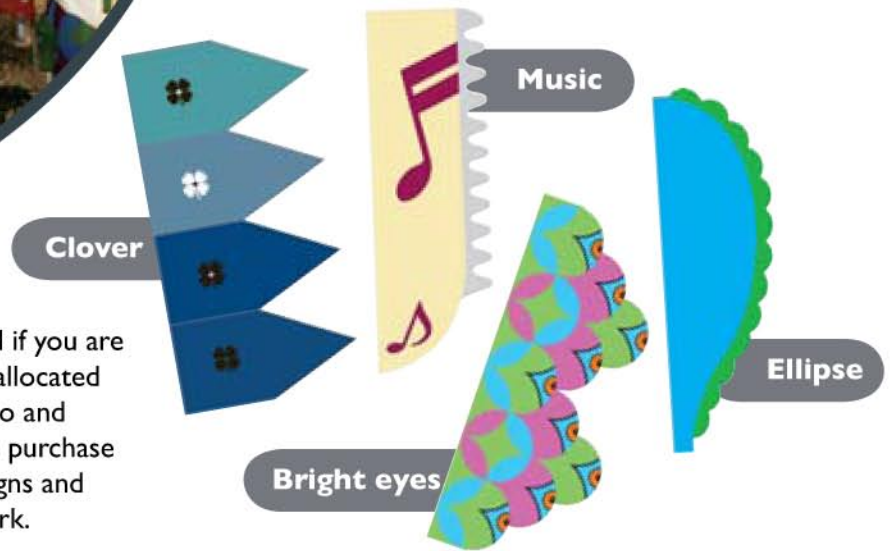

Designs & Styles

We have existing designs and are constantly developing new designs but often a festival organiser will provide a 'brief' and / or their own unique design.

Standard Designs

Our standard designs can be customised with your own colour scheme.

Purchase or Hire?

Festival flags can either be purchased or hired if you are choosing from our standard range. They are allocated for a one week period, and can be delivered to and collected from your venue. If you choose the purchase option we will manufacture the required designs and you have the option to personalise the artwork.

How many do I need?

The average and recommended number of poles to create sufficient atmosphere in a one acre field is 40 poles. Spectacular results can be obtained when in excess of 60 poles are used to dress a hillside or similar feature.

Bespoke Designs

If you want to create something unique we can produce a design that captures the colours, themes and branding you want to use. Our creative team will produce visuals to help you choose the design you prefer.

Hiring - the complete service

If you choose to hire we will...

- Undertake a site survey and write a risk assessment relative to crowds and associated risk.
- Discuss the stock flags or alternate new designs unique to the festival.
- Coordinate and implement installation.
- Provide supervision
- We will dismantle the poles and flags
- Full insurance is provided
