BANNER BOX

incorporating

## Hanging Bars & Wires

### Catenary Wires

Catenary Wires are used when installing banners across a street, passageway or similar gap, and make your installation quick, easy and safe.

Constructed from, 6mm steel cable, the wires have a bottle screw at one end and U clamps at the other. The cable is threaded through the banner pocket and can then be tensioned without distorting the banner.

- Manufactured to the length you require, allow 1 m extra for ease of installation
- Highly durable and re-usable

## Hanging Bars

30mm or 45mm aluminium bars enable smart installation of banners in free hanging locations. Upper bars are fitted with deck eyes for attachment of wires or cords.

- Standard sizes 500mm - 2000mm
- Extra long jointed bars available
- Suitable for large format exhibition use

We can also provide hoistable hanging bar solutions enabling banners to be raised or lowered from a safe ground position for easy change over.

## Wooden Dowels

For a professional finish when hanging a banner internally, these pine dowels are available in two diameters to suit most banner specifications.

- 9mm or 18mm Dia
- Standard sizes 500mm - 1000mm

## Snaplock Bars

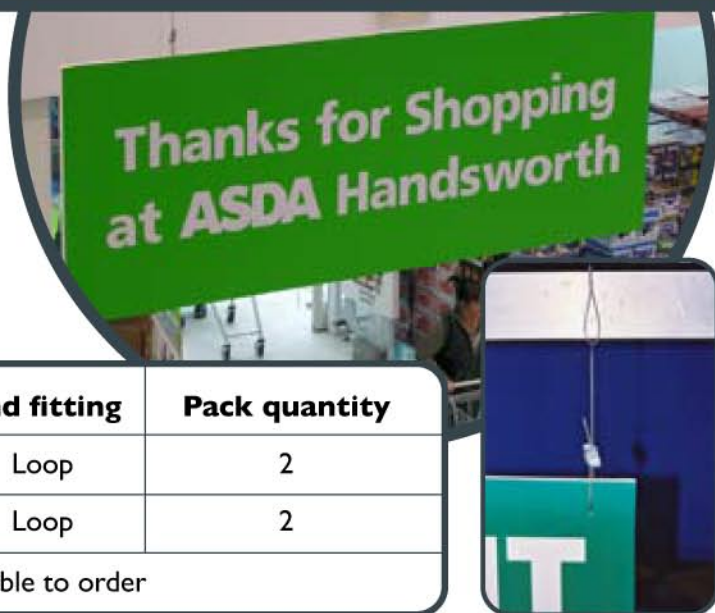

Snaplock bars are a great way to hang regularly changed graphics. With a sleek brushed aluminium finish these bars grip all forms of graphics up to 1mm thick. Ceiling clips give an easy attachment point for drop wires or cords

- Standard Sizes 400mm - 1500mm
- Ideal for instore POS, window dressing and promotional graphics
- Suitable for paper, PVC Banners, fabric graphics and display board

## Gripple Hangfast Wires

Hangfast wires have revolutionised the ease of installing hung graphics. Simply attach to a suitable ceiling anchor point, pass through the 'Gripple' and adjust as required. Supplied in packs of two complete with setting key.

Size	SWL	Length	End fitting	Pack quantity
No1	10kg	2m/5m	Loop	2
No2	45kg	2m/5m	Loop	2

Many other sizes and options available to order

## ◀ From Chesterfield
