Roller Banner

BESPOKE
DESIGNS AVAILABLE

Our high-quality retractable pull up roller banners are a great way to convey your branding at an affordable price.

The pull up roller banner is supplied ready-to-use with the single-sided graphics panel of your choice pre-fitted, complete with padded transit case.

Ready to use in just a few seconds – simply take the cassette out of the case and pull it up. To dismantle, let the graphics retract back into the spring-loaded cassette.

Perfect for Internal use Only.

PVC Banner

BESPOKE
DESIGNS AVAILABLE

PVC Banners (also known as vinyl banners) offer an effective and professional way to get your message noticed quickly.

Budget PVC 440gsm for a semi-permanent application. Printed in high-resolution full colour, our banners are finished with stitched hems and eyelets for hanging. 12mm eyelets are standard in our banners. The life span of a PVC banner is hard to determine as this completely depends on the hours of flying and also the weather. We recommend removing the banners during bad winds to help reduce putting too much stress on the banners.

Perfect for Internal or External use.

Graphics Size: 2000mm x 1000mm
