# FIVE MUST-HAVE PRINT SOLUTIONS FOR RETAIL AND HOSPITALITY

# Café Barriers

Custom-designed café barriers can help your business create outdoor seating areas, designated routes and crowd control, or even an unmissable opportunity to build brand awareness.

These versatile systems feature crossbars attached to corrosion-free stainless steel posts, complete with weighted bases and a choice between corner bungees or an additional crossbar for the bottom of the barrier.

Choose between our Popular or Premium range to create the enclosure you require. The Popular system features a flat top post with 11kg base and the Premium includes a sleek finial and a weighted base of 25kg.

Banners can be either plain or full colour digitally printed on a choice of materials – PVC, decotex, acrylic or mesh – with single or double sided options available.

## **Popular (double crossbar):**

1000mm (3.2ft) crossbar  
850 x 900mm graphics

1500mm (4.9ft) crossbar  
1350 x 900mm graphics

2000mm (6.5ft) crossbar  
1850 x 900mm graphics

## **Premium (double crossbar):**

1200mm (3.9ft) crossbar  
1050 x 900mm graphics

1500mm (4.9ft) crossbar  
1350 x 900mm graphics

2000mm (6.5ft) crossbar  
1850 x 900mm graphics

## FAQs

### **What is included in one café barrier system?**

2 x weighted base  
2 x steel post  
2 x crossbar (width varies based on order)  
2 x finial (Premium range only)  
1 x café barrier banner with pocket/s

### **Do all my café barriers have to be the same size?**

You can mix and match different widths as long as they are from the same system. By using shorter and longer barriers you can create a wide variety of shapes and areas for your business including corners, queues, and more.

### **Are café barriers easy to install?**

All our café barrier systems are supplied for self-assembly and are suitable for indoor and outdoor use. You won't need any tools to assemble the barriers, but we advise that 2 people work together to put install them. Ask to see our 10 simple steps to assembling a café barrier.

### **How many café barriers should I order?**

Café barriers create maximum impact when they are linked together. How many you need all depends on what you're looking to achieve with your barriers, and the space that you are working with. Speak to our team today and we can discuss your requirements and advise on how many systems you might need, as well as options such as double crossbar, additional posts, and more.

# Feather Flags

Our feather flags bring height, colour and vibrancy to any outdoor space.

Each one comes complete with a high-quality full colour printed 100gsm knitted polyester flag, sectional fibreglass pole, a carry bag, and a choice of either a spiked base or a water/sand fill base.

Flags are available in 3 sizes and 4 distinct styles:

## **Aero | Blade | Mistral | Sirocco**

<u>Style</u>	<u>Size</u>	<u>Flag</u>	<u>Pole</u>
<b>Aero</b>	Small	680mm x 1830mm	2310mm
	Medium	680mm x 3350mm	3615mm
	Large	680mm x 3810mm	4990mm
<b>Blade</b>	Small	660mm x 1760mm	2100mm
	Medium	830mm x 2810mm	3280mm
	Large	910mm x 3410mm	4580mm
<b>Mistral</b>	Small	690mm x 1860mm	2300mm
	Medium	690mm x 2810mm	3630mm
	Large	690mm x 3800mm	4940mm
<b>Sirocco</b>	Small	680mm x 1860mm	2400mm
	Medium	680mm x 2960mm	3640mm
	Large	680mm x 3810mm	4990mm

## FAQs

### **Are Feather Flags easy to install?**

Yes. All of our feather flags can be assembled and installed by 1 person, in less than 5 minutes.

### **What type of ground type is best?**

Feather flags can be mounted on soft ground, hard standing or indoors. It all depends on the type of base you choose.

### **Can I print on both sides?**

Yes you can. We use the highest quality material to ensure your design is bold and vibrant on both sides of your flag.

# Floor Vinyl

Custom-designed floor vinyls are an effective method of reminding employees and customers of key information. Perfect for use in any business setting, use floor vinyls to highlight keeping your distance, routes through your location, or promoting your latest sales and offers.

They are made from a crystal textured self adhesive vinyl, which makes them ideal for indoor wall and floor graphics.

The multi-surface vinyl is rated up to 1 month in heavy foot traffic areas, and up to 3 months in light to medium traffic. The material is produced on an air escape release liner for easy application.

Slip rated to R9, DIN51130, BS7976.  
Fire rated to EN 13501.

Bespoke options available including any shape, any size, and any design you like.

## FAQs

### **What is the standard size for Floor Vinyl?**

Most floor vinyl has a diameter of at least 400mm. However you can order any shape or size that you require.

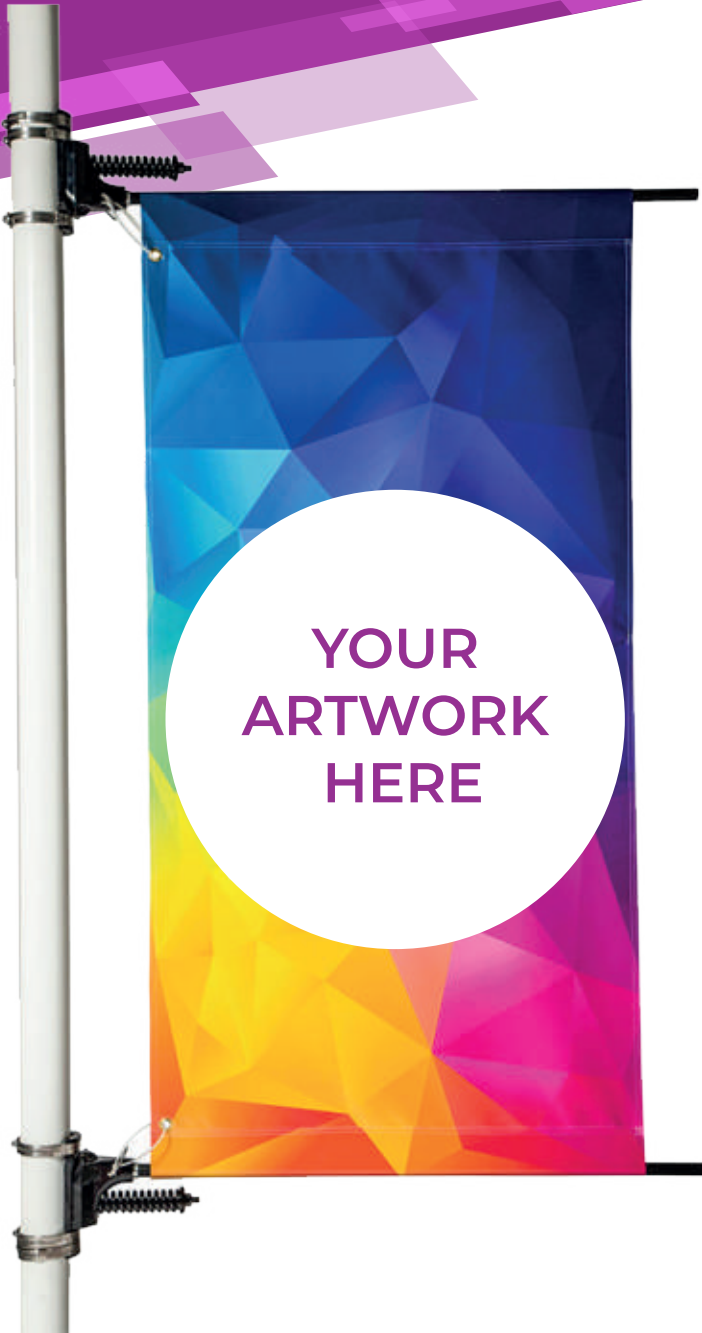

### **Is there a minimum order requirement?**

To ensure materials are not wasted we cannot accept orders of less than 10 floor vinyl stickers.

### **Does it have to be put on the floor?**

No it doesn't. You can place your vinyl on walls, ceilings or counters. For the best results, tell us where you'll be placing it and we can advise any necessary changes.

# AirSpring Post Mount

Guaranteed to make an unmissable statement, our AirSpring Post Mount System is fully compliant with the EN40 Government Regulation and wind tunnel tested up to 100mph.

The system comprises two brackets, two poles and six banding straps. Suitable for installation onto posts with a diameter of 76mm and above with a weight (excluding banner) of approximately 8kg.

**Black fibre glass poles**

850mm wide | 19mm diameter

**Powder coated aluminium brackets**

80mm wide | 170mm height

**Maximum banner size**

750mm wide | 2000mm height

## FAQS

**Is the AirSpring Post Mount easy to install?**

The system is simple to install and we provide a set of clear step-by-step instructions for 1-2 people.

**Can I install multiple systems on one post?**

Yes you can. The AirSpring can be fitted singularly or in pairs on each post. Each system comes with the parts and tools for singular installation.

**Can I print on both sides of the banner?**

Yes you can. We used the highest quality material to ensure your design is bold and vibrant on both sides of the banner.

# Tension Fabric System

Our Fabric Tension Display Systems are a unique range of aluminium display frames perfect for advertising your brand. The aluminium wall profiles are designed to be used with graphics that are push fitted into a thin recess. Fit your frame once and easily update your graphics.

The wall mounted systems are available in 19mm or 27mm profiles. The 19mm profile is ideal as a simple and economic profile with the 27mm profile a simple but sturdy profile.

Both profiles are supplied with either an anodised aluminium finish, Satin Black (RAL9005) or Satin White (RAL9003). Alternatively, it can be powder coated to any RAL colour required.

Frames are supplied flatpacked for simple assembly on site. For an attention grabbing display, our wall mounted systems can also be illuminated with LED lights.

## FAQs

### **Which materials are suitable for Tension Fabric Systems?**

Graphics are printed to Decotex or Blackback fabrics and are finished with a silicon edging which simply pushes into the specially designed frame edge creating a tensioned, fitting free installation and a 'frameless look'.

### **Is there a minimum/maximum size requirement?**

All frames are bespoke and can be made to any size to suit your requirements so with a near limitless range of sizes and shapes, the only limit is your imagination! Lengths over 3000mm are split and re-joined during assembly using the extension plugs supplied.
